

CORE - STAND

Hot & Cold Water Dispenser
(N0220-CH)

Hot and cold function
Fungsi panas dan sejuk

Save time and space
Jimat masa dan ruang

Reduce plastic pollution
Kurangkan penggunaan plastik

Minimalist design
Reka bentuk minimalis

Clean filtered water
Air bersih segera ditapis

Child safety lock system
Sistem kunci keselamatan kanak-kanak

Flexible payment plans
Pelan pembayaran fleksibel

Smart water level controller technology
 Maintain water levels automatically to avoid overflow.
Teknologi pengawal paras air pintar
 Mengekalkan paras air secara automatik untuk mengelakkan limpahan.

External heating system
 Outside-in heating element helps to maintain and prevent secondary pollution.
Sistem pemanasan luaran
 Elemen pemanasan luar membantu mengekalkan dan mencegah pencemaran sekunder.

Clear LED indicator
 Built-in LED indicator shows the mode (hot / cold) at a glance.
Penunjuk LED yang jelas
 Penunjuk LED terbina menunjukkan mod (panas / sejuk) dengan pantas.

Child safety lock system
 Additional features to protect your children.
Sistem kunci keselamatan kanak-kanak
 Sistem kunci keselamatan kanak-kanak

Intelligent temperature control system
 Ideal for cooking and the preparation of hot beverages such as coffee and tea.
Sistem kawalan suhu pintar
 Sesuai untuk memasak dan penyediaan minuman panas seperti kopi dan teh.

4 - Stage Water Filtration
Penapisan Air 4-Peringkat

Filter - 1 (4 Bulan)

Sediment Filter (세디먼트 필터)
 Capacity: 1,200 L (10L/Day)
 Sediment Filter is a pre-treatment filter of water purification system remove bigger than 5µm contaminants as dirt, sand and oxide pollutants from the tap water and protects membrane and pre carbon filter from being clogged.

Sediment Filter adalah penapis pra-rawatan sistem pembersihan air membuang lebih besar daripada 5µm bahan cemar sebagai kotoran, pasir dan oksida pencemar dari air paip dan melindungi membran dan penapis pra karbon daripada tersumbat.

Filter - 2 (8 Bulan)

Pre Carbon Filter (프리카본 필터)
 Capacity: 2,400 L (10L/Day)
 Pre Carbon Filter prevents hydrolysis of membrane and enhances the life of membrane, it also absorbs residual chlorine and organic chemicals from tap water. The efficient removal of chlorine from water, thus providing a source of water which tastes good and is more likely to be consumed.

Pre Carbon Filter menghalang hidrolisis membran dan meningkatkan fungsi membran, ia juga menyerap baki klorin dan bahan kimia organik dari air paip. Penyingkiran klorin secara efisien dari air, dengan itu menyediakan sumber air yang rasanya enak dan lebih baik untuk diminum.

Filter - 3 (12 Bulan)

UF Membrane Filter (유에프 멤브레인 필터)
 Capacity: 3,600 L (10L/Day)
 UF Membrane Filter which has as small as 0.001~0.1µm pore size is well suited to remove bacteria, clay, particle, suspended metal hydroxide and other suspended materials, however the containing minerals in water pass through UF Membrane filter having a superior water purification capability.

UF Membrane Filter yang mempunyai saiz liang 0.001 ~ 0.1µm yang sesuai untuk membuang bakteria, tanah liat, zarah, hidroksida logam yang digantung dan bahan-bahan lain yang digantung, namun mineral yang terdapat di dalam air melalui penapis UF Membrane mempunyai keupayaan pembersihan air yang unggul.

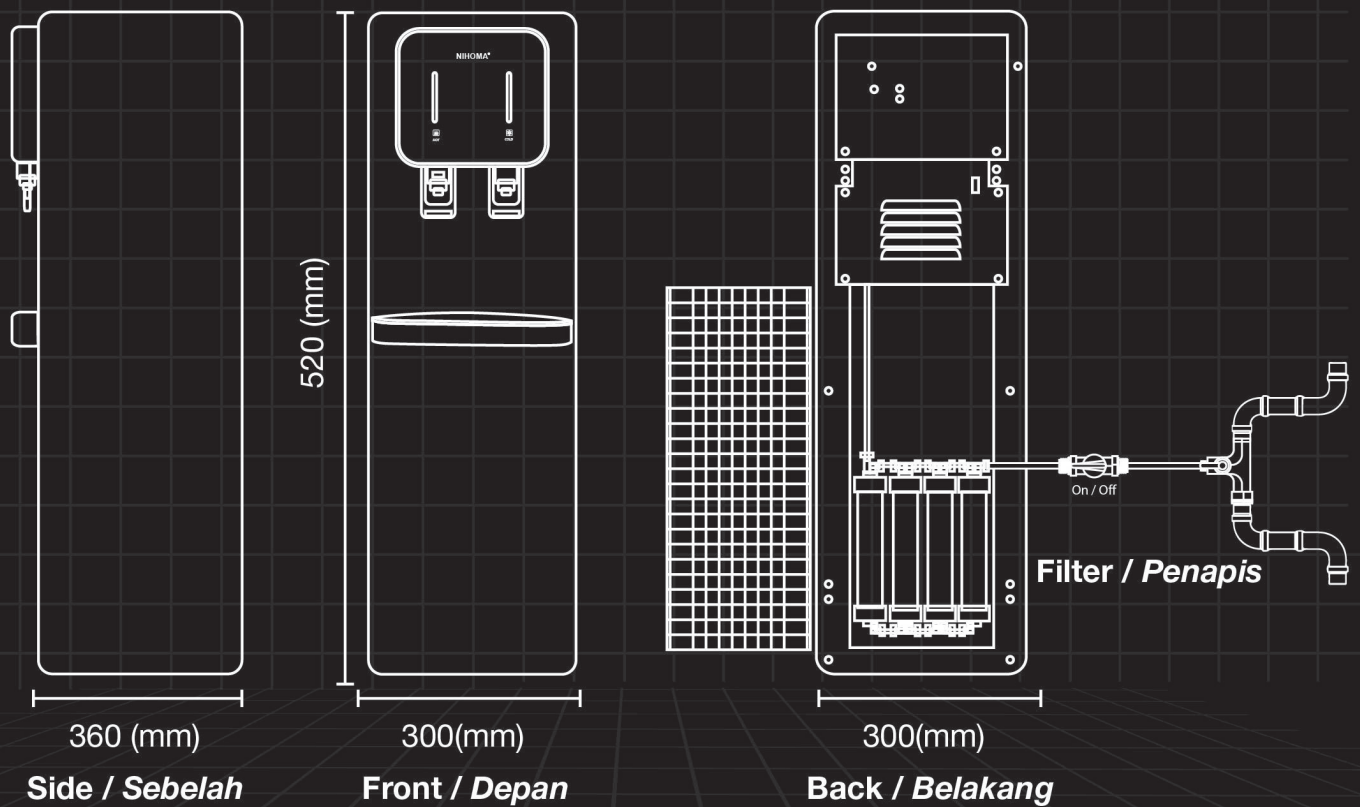

Filter - 4 (12 Bulan)

Alkaline Carbon Block Filter (알칼라인 카본 블럭 필터)
 Capacity: 3,600 L (10L/Day)
 Alkaline Carbon Block Filter utilizes a specially blended media with magnesium chip filtration technology. It creates water that has increased amounts of negative ions, magnesium (Mg), as well as hydrogen (H). The PH levels of the water are increased to levels between 8.5 and 9.5, which has numerous health benefits.

Alkaline Carbon Block Filter menggunakan media yang dicampur khas dengan teknologi penapisan cip magnesium, menghasilkan air yang mengandungi lebih banyak jumlah ion negatif, magnesium (Mg), dan juga hidrogen (H). Peringkat PH air meningkat ke tahap antara 8.5 dan 9.5, di mana ia mempunyai banyak manfaat kesihatan.

Recommended Retail Price (R.R.P):
 Harga Pasaran Disyorkan
RM 5,798

Product Name <i>Nama Produk</i>	CORE STAND (Hot & Cold Water Purifier)	Brand Name <i>Jenama</i>	NIHOMA®
Model No.	N0220-CH	Weight <i>Berat</i>	22 kg
Size (W x D x H) <i>Saiz (L x D x T)</i>	300mm (W) x 360mm (D) x 1130mm (H)	Rated Power <i>Kuasa Penarafan</i>	(220-240) V~, 50Hz
Water Tank Material <i>Bahan Tangki Air</i>	Stainless Steel <i>Keluli Tahan Karat</i>	Power Consumption <i>Penggunaan kuasa</i>	Total:550-650w (Heater/450-550w,COLD/120W(0.75A))
Filter System <i>Sistem Penapis</i>	Ultra Filtration (UF) <i>Penapis Ultra</i>	Tank Capacity <i>Kapasiti Tangki</i>	Cold Sejuk 3.8L Hot Panas 2.0L
Climate Class <i>Kelas Iklim</i>	T	Heating Type <i>Jenis Pemanas</i>	Band Heater <i>Pemanasan Jalur</i>
Compressor Maker <i>Pengilang Pemampat</i>	Samsung Electronics Co. Ltd.	Cooling Capacity <i>Kapasiti Penyejukan</i>	1.3L/Hour 1.3L/Jam
Country of Manufacture <i>Negara Pengilang</i>	Republic Of South Korea	Refrigerant <i>Penyejuk</i>	R-134a(36g)
